Subject: Public Comments for October 3rd LAVTA Meeting
Date: Monday, October 3, 2022 3:02:22 PM

Sorry this email is a bit late.

Hello Board Members,

Thank you to this organization for adding additional 30R service, for diligently working to resolve some phone app problems as well as issues with construction at Emerald High School, and for making adjustments to match the new BART schedule. Every little improvement in passenger experience is valuable and I feel that is recognized here. Staff is working in the background on many good things that matter and I wanted to highlight that.

Congratulations on the new website launch, and I'm looking forward to seeing the 2022 buses out on the road soon (and with that, all buses will have 3 bike racks, reducing the chances that I'm left behind).

I am personally hopeful for the recovery of some later night service, even once an hour or just a "last call" / "return to yard" shuttle for the ~11pm westbound 10R.

Thanks for your consideration.

Sincerely,
Steven Dunbar
