Re: **Doolan Tower Back Up Generator #2022-01**

Addendum Number 1

This correspondence constitutes official record of the first alteration of an “Invitation for Bids for LAVTA Doolan Tower Back Up Generator IFB #2022-01” issued on November 2, 2022.

The following are questions and/or requests for clarification received from bidders by the required deadline of 11 AM on November 23, 2022.

	Question	Answers
1	Does the job require small business or WBE participation?	Wile LAVTA encourages the use of SBE’s and DBE’s of all kinds they are not required on this procurement.
2	Was the meeting mandatory?	The Pre-Bid Conference and Walk Through was optional, but we felt in order for an accurate bid it would be useful for vendors to understand the project and site in which the work would be completed at. That is why we encouraged vendors to attend.
3	Do you have any site photos available to share during the Non Mandatory job walk? We are looking for more information on the Concrete Pad locations as ST-01 doesn't provide more information of work to be done such as if there's any existing concrete pad to be demoed at the New Housekeeping Pad areas.	See below

4	Spec section 86-2.01 A 1 calls for a 14 KW continuous duty generator. No manufacturer makes a continuous duty rated unit that small. We suggest upsizing to a 20 KW standby unit that can be derated to meet the requirement. Also if an larger industrial unit was to be used the requirement of physical size outline in item 4 of this section could not be met.	The tech specs require that the “generator must . . . Be 120/240V, 14kW minimum , continuous duty type.”
---	---	---

LAVTA Doolan Tower Back Up Generator
#2022-01
Addendum #1
December 8, 2022

Other than those specifically listed above, no other sections, terms, or conditions of the above-cited solicitation are being altered at this time. All other sections, conditions, and language not specifically cited as altered in this document are still in full and original effect.
