

STAFF REPORT

SUBJECT: Regional Transportation Measure Update

FROM: Christy Wegener, Executive Director

DATE: October 22, 2024

Action Requested

Receive an informational update on the Regional Transportation Revenue Measure effort.

Background and Discussion

In July, the Metropolitan Transportation Commission (MTC) formed a Transportation Revenue Measure Select Committee of both Commissioners and stakeholders to develop regional consensus around details of future authorizing legislation for a regional transportation revenue measure. The Committee is charged with approving a regional transportation measure framework by the end of October. MTC Commissioner and Alameda County Supervisor Nate Miley serves on the Select Committee, and LAVTA Executive Director Christy Wegener serves on the Committee’s Executive Group.

The Select Committee and Executive Group each meet monthly. The Executive Group is meeting on October 17, and the Select Committee on October 21. During the October meetings, revisions to the revenue measure scenarios will be presented and discussed; a third scenario that is being developed by operators will also be presented. The goal is to reach consensus on a revenue measure framework at the October meeting.

Next Steps

Staff will continue to engage on Revenue Measure efforts and will bring future informational or action updates to the Committee and/or Board as may be appropriate and desirable.

Recommendation

None — information only.
